DISCUSSION: The Vista Plant is a sand washing and concrete batching plant located at 1508 West Mission Road, Escondido, California.

On March 25, 1988, this Regional Board adopted Order No. 88-38, *Waste Discharge Requirements for Escondido Ready Mix Concrete, Inc., Vista Plant*, Escondido, California. Order No. 88-38 established Waste Discharge Requirements for the discharge of sediment laden wastewater to two unlined settling ponds from sand washing and concrete batching plant.

On February 27, 1989, this Regional Board adopted Addendum No. 1 to Order No. 88-38, *An Addendum Transferring Responsibility For Order No. 88-38 From Escondido Ready Mix Concrete, Inc. – Vista Plant To Superior Ready-Mix Concrete, L.P., Vista Plant, San Diego County*.

By letter dated January 28, 2000, Mr. Arnold Veldkamp notified the Regional Board that the facility ceased operation in December 1999, that the lease of the site has ended, and that rescission of Order No. 88-38 is requested. On February 23, 2000, Regional Board staff inspected the Vista Plant and confirmed that the sand and batch plant facilities were no longer on site, the sedimentation

ponds have been filled-in and the site had been graded in preparation for construction of an industrial park.

Tentative Order No. 2002-171 would, if adopted, rescind Order No. 88-38.
